Professional Profile

Software developer with over six years of experience in web and mobile banking application projects. Expert in front-end technologies such as JavaScript, HTML, and CSS, REST service consumption, and agile methodologies (Scrum/Kanban). Passionate about continuous learning, he is currently honing his skills in React, Express, and MongoDB, and actively improving his English.

Work Experience

GlobalLogic | La Plata, Buenos Aires
Software Developer — 2018 – 2025

- Development, testing, and documentation of banking functionalities for web and mobile applications (Android/iOS).
- Bug resolution and support for production incidents (hotfixes).
- Extensive knowledge of project-specific technologies and banking business rules.
- Informal mentoring of teammates on technical and functional issues.
- Active participation in Scrum teams: planning, refinement, dailies, retrospectives.

Technologies and tools: JavaScript, HTML, CSS, Visualizer Framework, Postman (REST APIs), basic SQL (insert, select, update, create table), Git (code versioning), Jira (agile management), React Js, MongoDB, Express.

Education

- **Bachelor's Degree in Systems** — Faculty of Computer Science, National University of La Plata (UNLP) | 2012-2018
 - **Complete Secondary Education – Economics and Management of Organizations** — IPEM 326 "Mariano Moreno", Freyre, Córdoba | 2011
-

Languages

- English: Level B2.
-
